Grading Policy

- Class attendance 10%
  - Must - otherwise you will get 'F' grade
    - Attend 12 weeks and more

  - May
    - From an absent, it will be reflected on your grade (-2 point per absent)
    - Attending after lecture will be counted by late (-0.5 point per late)
      - ~ 15 minutes before
      - 2 lates = 1 absence

Grading Policy

- Projects / Quizzes: 40%
  - You will get '0' score for each project
    - Not run
    - No submission
    - More than 80% similarity

  - You will get '0' score for each quiz that is performed without prior notice
    - No submission

Grading Policy

- Mid exam 25%
  - You will get '0' score for the exam if you would not submit

- Final exam 25%
  - You will get '0' score for the exam if you would not submit

- If you get less than 60, you will fail this course.
  - There is no exception

- Grading policy is subject to change.

Lecture notes & Projects

- Lecture notes will be uploaded at LMS
  - Some of slides for this lecture are based on materials provided by the textbook publisher
  - They will be made in Korean

- Projects (xv6)
  - A teaching OS developed by MIT
    - Port of the Sixth Edition Unix (v6) in ANSI C
    - Runs on multi-core x86 systems
  - We are preparing 4 ~ 5 projects
  - These will be individual projects

Today's Talk

- Briefly describing how to study operating systems
